ABOUT ME

Software engineer specializing in cross-platform creative-tool integrations, with deep experience shipping production-grade Electron apps and platform SDK work across web, desktop, and native. At PageProof, I am a core member of a small remote product team and primary owner of integrations connecting Canva, Microsoft Office, Adobe Creative Suite, and Final Cut Pro to PageProof's review workflow, plus the cross-platform Electron desktop app. **Languages:** Portuguese (native); English (full professional proficiency).

WORK EXPERIENCE

Software Engineer

Mar. 2023 – Present

PageProof.com Limited

Remote

- Built and shipped production integrations for **Canva**, **Microsoft Office**, **Final Cut Pro**, and **QuarkXPress** as primary engineer; co-developed **Adobe UXP** (Photoshop/InDesign) integrations using React, TypeScript, Swift, C++, and platform SDKs.
- Building the **Jira** integration (proof references, synced issue comments, approved-file attachments) with React, TypeScript, and Node.js.
- Designed and built PageProof's company-wide **OAuth 2.0** (RFC 6749) Authorization Server with **OpenID Connect (OIDC)** (OpenID Connect) support (**Node.js**) and cross-platform **Electron** desktop app as primary engineer.

Operations Research Analyst

Jan. 2022 – Sep. 2022

CTT – Correios de Portugal, S.A.

Lisbon, Portugal

- Applied operations research and data modeling to postal logistics; this work reinforced my move into software engineering focused on complex systems and user-facing products.
- Led an operations research and data analytics project optimizing **last-mile delivery** within the postal distribution network.
- Modeled and solved a **vehicle routing problem (VRP)** for postal delivery constraints and developed **Tableau** visualizations to support operational planning.

PROJECTS

igcp-aforro | TypeScript library & CLI

Open source

- Deterministic, decimal-safe simulator for Portuguese **IGCP Aforro** Treasury Certificates (Séries B–F); **Zod**-validated inputs and golden tests against published IGCP rates.
- Published **npm** package with CLI, static **rates.json**, read-only HTTP API, and MCP server; CI automates Euri-bor/IGCP data refresh.

EDUCATION

NOVA University Lisbon

Sep. 2020 – Dec. 2022

Master of Science in Computer Science

Lisbon, Portugal

- *Relevant coursework:* Artificial Intelligence, Concurrency and Parallelism, Data Modelling, Information Retrieval, Machine Learning

Technische Universität Dresden

Apr. 2021 – Oct. 2021

Erasmus+ Programme Mobility in Computer Science

Dresden, Germany

NOVA University Lisbon

Sep. 2017 – Sep. 2020

Bachelor of Science in Computer Science

Lisbon, Portugal

- *Relevant coursework:* Algorithms and Data Structures, Object-Oriented Programming, Databases, Sensors and Image Processing
